

ADVISORY

It has come to light that some unscrupulous individuals are reportedly demanding money from candidates or their parents/guardians in the name of the Commission, assuring selection in the recently conducted or to be conducted tests/interviews.

It is reiterated that the Commission has put in place a very robust, transparent and unbiased system of selection based purely on merit. It is a matter of grave concern that the name of the Commission is being sullied by a few rogues of the society.

The modus operandi appears to be simple. Demand is made to a few selected candidates with an assurance of a 'refund' in case of non-selection ; implying that successful candidate would actually end up paying for a selection which was on his own merit.

The Commission would like to caution all concerned to remain vigilant and not fall prey to such dubious cheats. At the same time they must report the matter to the police or the Commission to ensure culprits are brought to book.

All NGOs, individuals and general public having concern for a clean system in the society are requested to keep vigil on such unscrupulous and unethical wrongdoings and bring to light for appropriate legal action and public reprimand.

The State Govt. is also requested to alert the vigilance department to keep an eye on such activities and take stern and exemplary legal action on the culprit whenever brought to light so that such nefarious and unhealthy activities do not recur in future.

Issued in public interest by order of the Commission.
